M - Not verified - Exact question purpose and amount were not established in the earlier overview; consult official ballot text.

N - Operational buildings bonds, $81.75M - FOR: borrowing authorized for county facilities. AGAINST: borrowing not authorized.

Important scope and verification notes

This document separates only the requested geographic scope. Statewide contests/questions are intentionally excluded from the City and County documents. District-specific congressional and General Assembly contests are not included because the earlier overview did not provide a verified roster.

Statements are summarized from the earlier conversation, not newly verified official ballot text. Some offices, judges, candidate positions, vote histories and question details remain incomplete. Confirm with the official sample ballot before distribution.

Bond approvals authorize borrowing and potential debt service; they are not necessarily immediate tax increases.
